FOR IMMEDIATE RELEASE

## **MDSupplies Announces the Manufacturer-Direct Relationship with Dynarex, a leading Manufacturer of Medical Supplies and Products**

### **Summary**

Using proprietary DirectConnect technology from MDSupplies, customers can now purchase the complete line of Dynarex products and have them shipped directly from the manufacturer to their doorstep.

FORT LAUDERDALE, Florida (February 12, 2016) — MDSupplies and Service (MDSupplies), which offers medical supplies and medical equipment through an “Amazon-type” marketplace, has established a manufacturer-direct relationship with the Dynarex Corporation (Dynarex), a leading medical supplies and products company.

The MDSupplies proprietary “DirectConnect” system is an online ordering portal serving as a single source for buying supplies from multiple manufacturers and vendors, all through a single order. The technology also allows customers and clients to track shipments and analyze historical purchasing data, whether at a single site or across hundreds of locations. Customers looking to purchase the Dynarex line of products through the MDSupplies DirectConnect system have no software to download, no account applications to complete, no minimum orders to meet, and no contracts to sign. They just need to visit the MDSupplies website, find the products they are seeking and checkout similar to a traditional ecommerce store.

Dynarex was established in 1967, and has evolved into one of the healthcare industry's leading manufacturers of disposable medical products. Dynarex aims to offer a wide selection of high-quality products at an exceptional value. They have 4 distribution centers across the United States, which results in all products typically arriving to customers in just a couple days. Customers can now choose from over 800 Dynarex products in the MDSupplies manufacturer-direct medical supply store.

### **About MDSupplies and Service**

MDSupplies and Service is a multi-vendor medical supply store specializing in connecting customers directly to major manufacturers and vendors for medical supplies and medical equipment. It is their goal to offer the best industry prices possible by eliminating traditional dealer, distributor, and sales people expenses. Clients can purchase from over 30,000 products, 50 different vendors, and 300 brands in one single transaction, allowing them maximum flexibility and efficiency. With a direct affiliation to industry-leading companies, MDSupplies brings more than 30 years of combined medical industry experience.

### **About Dynarex Corporation**

Dynarex, a Tillotson Healthcare brand is a leading medical products company that aims to offer a wide selection of high-quality products at an exceptional value. Dynarex views themselves as partners servicing the medical industry since 1967. Dynarex aims to become an even more recognized brand name in the marketplace, capitalizing on their continuous growth. Their goal is simply to provide many product choices under one roof; servicing 15 market segments.
